

DEEP DIVE INTO A TELCO SOLUTION THAT HAS YOUR BACK

DOLFIN BACK2BACK

SIP TRUNK TELECOM PLAN

An easy to implement and manage end-to-end unified fixed line communications system, Dolfin BACK2BACK utilises your existing Internet connection to maximise meaningful communication. Whether to greatly reduce costs incurred from overall call time and volume, support a higher number of concurrent calls, or scaling your business across regions or globally, BACK2BACK has the right telecom plan that all businesses can confidently rely on.

MORE COST SAVINGS

** Reason enough!*

Greatly lower your costs and control your plan according to your needs and usage. Save up to **70%** on all call charges and contract fees.

TIME IS MONEY: EVEN MORE COST SAVINGS!

Stay ever productive and keep calling those customers! Pay less per minute across phone calls made through all dedicated direct phone numbers.

NO LONGER LIMITED TO JUST LOCAL

No longer limited to just local calls, communicate using seamless high-quality long distance and international calls over the Internet.

RELIABILITY ACROSS THE BOARD

Traditional phone systems just can't match BACK2BACK which provides redundancy for power or network outages in order to ensure uninterrupted communication and business continuity.

KEEP YOUR EXISTING NUMBER

You can keep your existing and familiar phone number when you switch to our plan.

SCALABILITY

Expand as you go. Use and pay for only what you need at the moment and add additional phone lines any time at no extra phone line costs.

WORK CLOSER WHETHER TOGETHER OR REMOTELY

Individuals and teams working remotely is more prevalent today than ever before. Your existing telephony systems can easily be routed to mobile devices, allowing teams to work across different locations.

MAINTENANCE-FREE

** Quick deployment.*

Easy and intuitive to manage phone lines, call features, extensions, and more. Forget learning curves, and you won't need an IT team or dedicated staff.

SECURED & PROTECTED

Enjoy a dedicated connection that protects your business through encryption, call logs, and monitoring of unusual call activity.

WE GOT YOU

Enjoy dedicated support from a friendly Dolfin specialists at no extra cost to ensure zero hiccups when it comes to maximising your telecom plan.
